

■ OptimToldos

Complete SEO Architecture

Strategic sitemap — Local SEO + Product · 2026

This document details the URL architecture for OptimToldos: 80+ indexable pages organised across 7 SEO layers. Each URL is designed to capture specific local traffic (searches by area), product traffic (searches by type) and combined traffic (product + location). The structure replicates and outperforms the positioning strategy of competitors such as Toldos4Sun, adding authority guides and coverage in 7 languages.

LEGEND — PAGE TYPE AND PRIORITY

■ High priority	■ Medium priority	■ Low priority	[ZONE ES]	[ZONE EN]	[PRODUCT]	[PROD+ZON E]	[GUIDE]	[CORE]
--------------------	----------------------	-------------------	-----------	-----------	-----------	-----------------	---------	--------

1. CORE PAGES

Structural pages of the website. Not intended to generate local SEO traffic, but essential for E-E-A-T (Experience, Expertise, Authority, Trust), conversion and navigation. Homepage and Free Quote are the highest-converting pages.

URL	Type	Prior.	SEO Purpose
/	CORE	●	Homepage — hero product, 20 geotagged photos, zones, products, contact. Priority 1.0
/sobre-nosotros	CORE	●	About Us — E-E-A-T: 15+ years experience, team, own installations
/galeria	CORE	●	20+ geolocated photos. SEO alt-text. Indexed in sitemap-images.xml
/contacto	CORE	●	Main CTA. Form with zone+product selector. WhatsApp. 7 languages
/presupuesto	CORE	●	Conversion landing. Parameters ?product=X&location;=Y for tracking
/zonas-de-servicio	CORE	●	Area hub. Internal links to 20 zone pages. Own indexed page
/blog	CORE	●	Editorial content. Topical authority. 2 posts/month recommended
/aviso-legal	CORE	●	Legal. noindex recommended in robots.txt
/politica-privacidad	CORE	●	Privacy Policy. noindex recommended
/politica-cookies	CORE	●	Cookie Policy. noindex recommended

2. PRODUCT PAGES

One URL per product. They capture generic searches: "bioclimatic pergola Alicante", "cassette awning price". Each page must include 2026 pricing, comparisons, FAQs and links to zone pages to reinforce local signals.

URL	Product	Prior.	Main keyword + SEO note
/toldos	Awnings (hub)	●	"awnings Alicante" — Hub linking to all awning types
/toldos-cofre	Cassette Awnings	●	"cassette awning Alicante" — Hero product. Prices, FAQs, coastal fabric guide
/toldos-brazo-extensible	Arm Awnings	●	"retractable awning terrace Alicante" — Classic, most searched
/toldos-verticales-zip	Screen ZIP Vertical	●	"vertical screen awning Alicante" — Lateral protection
/toldos-punto-recto	Straight Drop	●	"straight drop awning window Alicante"
/toldos-motorizacion	Motorisation	●	"motorised awning wind sensor Alicante" — Somfy, Nice, Elero
/pergolas	Pergolas (hub)	●	"pergolas Alicante" — Hub linking to pergola types
/pergolas-bioclimaticas	Bioclimatic Pergolas	●	"bioclimatic pergola Alicante price" — Most searched premium product
/pergolas-aluminio	Fixed Aluminium Pergola	●	"fixed aluminium pergola terrace"

/pergola-toldo-deslizante	Sliding Awning Pergola	●	"sliding awning pergola pool Alicante"
/verandas	Verandas	●	"veranda patio Alicante" — Fixed structure + integrated awning
/cortinas-de-cristal	Glass Curtains	●	"glass curtains terrace Alicante" — High demand among expats
/velas-de-sombra	Shade Sails	●	"shade sail pool Alicante" — Geometric, architectural
/ventanas-pvc	PVC Windows	●	"PVC window installation Alicante" — High energy efficiency

3. LOCAL AREA PAGES — SPANISH (20 independent URLs)

This is the core of local SEO. Each area has its own URL with unique content: specific text about the location, minimum 3 geolocated real photos and links to product+zone pages. **One URL per area = independent ranking for each local search term.** This was the critical error in dev.optimtoldos.com: all areas on one page using #anchors that Google cannot index separately.

URL	Location	Area	Target keywords	Im gs	P.
/toldos-torrevieja	Torrevieja	South CB	"toldos Torrevieja" / "awnings Torrevieja"	3	●
/toldos-orihuela-costa	Orihuela Costa	South CB	"toldos Orihuela Costa" / "pergola Orihuela"	3	●
/toldos-ciudad-quesada	Ciudad Quesada	South CB	"toldos Ciudad Quesada" / "pergola golf"	3	●
/toldos-guardamar	Guardamar del Segura	South CB	"toldos Guardamar" / "cassette awning Guardamar"	3	●
/toldos-la-marina	La Marina (S. Fulgencio)	South CB	"toldos La Marina Alicante"	2	●
/toldos-elche	Elche	Central	"toldos Elche" / "bioclimatic pergola Elche"	3	●
/toldos-alicante	Alicante City	Central	"toldos Alicante" / "cassette awning Alicante"	3	●
/toldos-santa-pola	Santa Pola	Central	"toldos Santa Pola" / "seafront awning"	2	●
/toldos-gran-alacant	Gran Alacant	Central	"toldos Gran Alacant" / "pergola Gran Alacant"	2	●
/toldos-benidorm	Benidorm	North CB	"toldos Benidorm" / "hospitality awnings Benidorm"	2	●
/toldos-cabo-roig	Cabo Roig	Orihuela sub.	"toldos Cabo Roig" / "luxury pergola Cabo Roig"	2	●
/toldos-la-zenia	La Zenia	Orihuela sub.	"toldos La Zenia" / "glass curtains La Zenia"	2	●
/toldos-punta-prima	Punta Prima	Orihuela sub.	"toldos Punta Prima" / "seafront penthouse awning"	2	●
/toldos-villamartin	Villamartín	Orihuela sub.	"toldos Villamartín golf" / "pergola Villamartín"	2	●
/toldos-playa-flamenca	Playa Flamenca	Orihuela sub.	"toldos Playa Flamenca"	2	●
/toldos-campoamor	Campoamor / Dehesa	Orihuela sub.	"toldos Campoamor" / "pergola Dehesa de Campoamor"	2	●
/toldos-los-balcones	Los Balcones	Vega Baja	"toldos Los Balcones Torrevieja"	2	●
/toldos-rojales	Rojales	Vega Baja	"toldos Rojales" / "motorised awning Rojales"	2	●
/toldos-san-miguel-salinas	San Miguel de Salinas	Vega Baja	"toldos San Miguel de Salinas"	2	●
/toldos-dolores	Dolores	Vega Baja	"toldos Dolores Vega Baja"	1	●

★ GOLDEN RULE — Image naming: every image must use the geolocated naming convention. Example: cassette-awning-motorised-pool-torrevieja.jpg · This generates local signals in Google Images and reinforces the ranking of the zone page.

4. LOCAL AREA PAGES — ENGLISH · Awnings & Pergolas (20 URLs)

The majority of Costa Blanca residents are foreign nationals. Searches such as "awnings Torrevieja" or "bioclimatic pergola Orihuela Costa" have real volume and **no local competitor targets them effectively**. Each URL includes hreflang ES↔EN so Google understands the relationship.

URL (EN)	Linked ES URL	English keywords	P.
/en/awnings-torrevieja	/toldos-torrevieja	"awnings Torrevieja" "cassette awning Torrevieja"	●

5. PRODUCT + ZONE COMBINATIONS (24+ URLs)

These are the highest-converting URLs in the sitemap. They capture maximum commercial intent searches: the user already knows what product they want and in which area they live. "Bioclimatic pergola Torrevieja" converts 3–4x more than "pergola Alicante". These pages combine product content with specific local signals: area pricing, communities served, and real photos of work in that location.

6. SEO AUTHORITY GUIDES (E-E-A-T) — 8 URLs

The guides are the E-E-A-T factor of the website: they demonstrate real experience and expert knowledge of the Costa Blanca market. Google uses them to elevate the topical authority of the domain, which improves the ranking of **all** other pages on the site. They also capture high-intent informational searches that generate leads ("how much does a bioclimatic pergola cost in Alicante?", "do I need planning permission?").

URL	Title	Informational keywords	Key content	Prior.
/guia-licencias-pergolas-toldos-alicante	Planning Permission Guide	"planning permission awning Alicante" "permit pergola Torrevieja"	Municipality by municipality. Permit processing managed.	high
/guia-elegir-toldo-costa-blanca	How to Choose an Awning	"which awning to choose terrace" "best cassette vs arm awning"	Orientation, wind, salt air, 2026 prices	high

/guia-cortinas-cristal-terraza	Glass Curtains Guide	"glass curtains price" "glass curtains planning"	How they work, 2026 prices, planning, use cases	high
/precio-toldos-alicante-2026	Awning Prices Alicante 2026	"how much does an awning cost Alicante" "cassette awning price"	Price tables by model and size	very high
/mantenimiento-toldos-costa-blanca	Awning Maintenance Costa Blanca	"awning maintenance coast" "awning salt air care"	Specific guide for saline coastal climate	medium
/toldos-comunidades-propietarios-alicante	Awnings & Residents Communities	"install awning residents community" "uniformity facade"	Procedures, proposal for property manager	medium
/sensor-viento-toldos-motorizados	Wind Sensor for Motorised Awnings	"wind sensor awning" "motorised awning rain sensor"	Why it is essential on the Costa Blanca	medium

7. XML SITEMAPS — Indexing Structure

Google processes segmented sitemaps more efficiently. A master sitemap index links to 7 specialist sub-sitemaps. The image sitemap is the key differentiator versus competitors: correctly naming images with geolocation and submitting them in the image sitemap multiplies traffic from Google Images.

File	Content	URLs	Update freq.
/sitemap.xml	Master index — links to the 7 sub-sitemaps below	1	Monthly
/sitemap-core.xml	Homepage, About Us, Gallery, Contact, Free Quote, Blog	10	Weekly
/sitemap-productos.xml	14 product pages with representative images	14	Monthly
/sitemap-zonas-es.xml	20 Spanish area pages with 3 geolocated images each	20	Weekly
/sitemap-zonas-en.xml	20 English area pages (awnings) + hreflang ES↔EN	20	Weekly
/sitemap-producto-zona.xml	24 product+zone combinations — highest converting	24	Monthly
/sitemap-guias.xml	8 SEO authority guides	8	Monthly
/sitemap-images.xml	ALL images with geolocated names and alt-text (60+)	60+	Weekly
